A POSTAL REPORT

Recommends Congress to Authorize Clerk Hire Allowances at Third Class Post Offices.

DOMESTIC MONEY ORDERS ISSUED

Receipts at Dead Letter Office of Mail Matter of All Classes Were 10,153,528 Pieces.

Legislation to Abolish Private Letter Box Abuses in Cities and to Prevent Boycotting of Post Offices Is Urged.

Washington, Nov. 19.—Robert J. Wynne, first assistant postmaster general, in his annual report to the postmaster general, recommends that congress authorize clerk hire allowances at all third-class post offices. Only the first and second class offices have this allowance at present, and Mr. Wynne advocates an allowance for this purpose of \$100, wherever the postmaster's salary is \$1,000 or \$1,100; or of \$200 where the postmaster gets \$1,200 or \$1,300; \$300 where the postmaster gets \$1,400 or \$1,500; \$400 where the postmaster is salaried at \$1,600 or \$1,700, and \$500 where the salary is from \$1,800 to \$1,900. This would make the total appropriation for clerk hire allowances at third-class post offices and for separating mails at third and fourth-class post offices and for unusual business \$2,200,000.

Mr. Wynne recommends new classification law for clerks in first and second-class post offices, creating a number of new positions and abolishing the titles of all clerks below the grade of foreman, simply designating as clerks employees whose duties are purely clerical. It is recommended that the maximum allowance for fuel and light at third-class post offices be increased from \$60, as now fixed by law, to \$80 per annum. A lump appropriation of \$20,000,000 is asked for clerks at first and second-class offices, instead of segregating his appropriation into grades of clerks.

During the year the domestic money orders issued amounted to \$353,627,648 and the excess of receipts from this source over expenses paid from the proceeds was \$1,994,888.

The amount of money orders, both domestic and international, including postal notes issued since the organization of the system in 1864, was \$4,987,903,613.

The receipts at the dead letter office of mail matter of all classes and from all sources which could not be delivered, deciphered or were unmailable were 10,153,528 pieces, an increase of 8 1/2 per cent. Mr. Wynne urged legislation to abolish the private letter box abuse in the cities; to prevent the boycotting of post offices because of political differences, petty jealousies, selfish motives, etc.; to punish the use of a postmarking stamp for any unlawful or improper purpose; to absolutely bar inflammable matter from the mails and to further restrict the mailing of disease germs.

PROTECTION OF PRESIDENT.

Bill Introduced Embodying Conference Report of Last Congress.

Washington, Nov. 19.—Representative Overstreet, of Indiana, introduced a bill embodying the conference report of the last congress on the bill for the protection of the president.

Persons aiding or abetting the escape of offenders under this law are to be tried as principals. A 20-year imprisonment penalty is prescribed against persons teaching anarchistic doctrines.

A SWEEPING DECISION.

A Knockout Believed to Have Been Dealt Louisville Poolrooms.

Louisville, Ky., Nov. 19.—The decision of the court of appeals Wednesday upholding the ordinance against poolrooms passed by the republican council in 1900 is believed to be a knockout blow for the rooms in Louisville.

Frankfort, Ky., Nov. 19.—In a sweeping opinion delivered in the cases of the city of Louisville against Henry Wehmhoff and others, the poolroom cases, the court of appeals holds that the general council of a city has authority to adopt ordinances prohibiting the operation of poolrooms and punishing operatives, proprietors of buildings and telegraph companies for furnishing information to poolrooms.

LEXINGTON HORSE SALES.

Mrs. John M. Clay Disposed of Her Thoroughbreds on Account of Age.

Lexington, Ky., Nov. 19.—At the disposal sale of Ashland stud Wednesday the nucleus of which was organized by Henry Clay, the great commoner, 38 horses brought an average of \$205. Mrs. John M. Clay, daughter-in-law of Henry Clay, disposed of her thoroughbreds on account of advanced age and ill health. After the Ashland sale, broodmares, yearlings and weanlings from other consignments were sold. Forty-one broodmares brought a total of \$6,295, the most of which were bought by the American Breeders' association and will be retired with their pedigrees concealed. Twenty-six yearlings brought a total of \$2,475.

BY MASKED MEN.

Negro Taken From Jail and Beaten With Hickory Sticks.

Augusta, Ky., Nov. 19.—Edward Williams, colored, who, it is charged, had annoyed white women by standing on the street corners and winking at them as they passed, was arrested on the charge of disorderly conduct. About 11 o'clock at night masked men entered the jail and took Williams out by force. He pleaded for mercy, but his pleas fell on deaf ears. He was dragged to the outskirts of the city and severely flogged by strong men, who wielded hickory sticks. A passerby yelled "Police!" and in the confusion that followed the Negro got away. Wednesday Williams' wife and child left the city.

THE CANAL TREATY

A New One Provides For the Construction of It by the United States.

HAY AND BUNAU VARILLA SIGN IT

The Panama Minister Sent a Confidential Cablegram to His Government Informing It of the Act.

The Convention Gives to the United States Government Absolute Sovereignty Over the Canal Strip—A Perpetual Grant.

Washington, Nov. 19.—Secretary Hay and M. Philippe Bunau-Varilla, the minister from Panama, at 6:40 o'clock Wednesday evening, signed the Hay-Bunau-Varilla treaty providing for the construction of the Panama canal by the United States. The ceremony occurred in Secretary Hay's study. Hearty congratulations were exchanged and it was agreed that the news of the signing of the treaty should be kept from the public for the present. President Roosevelt was immediately advised of the signing of the document and Minister Bunau-Varilla sent a confidential cablegram to his government stating that the treaty had been signed.

The document consists of between 22 and 25 articles, but the main points of the convention are contained in the first six articles. The keynote of the treaty is the provision in one of the very first articles, by which Panama cedes to the United States whatever land or lands through the republic of Panama this government shall find desirable in connection with the building or the operation and maintenance of the canal. In addition the treaty gives to the United States absolute sovereignty over the canal strip, which it is understood comprises between eight and ten miles on each side of the canal. Within this zone the power of the United States is as absolute as if the zone were part and parcel of this country.

In general, it may be said that while the new treaty contains many of the provisions of the failed Hay-Herran treaty it is not based on that convention, but follows not only the spirit but the letter of the Spooner act. Thus, instead of the lease for a fixed period of the canal strip this new treaty provides for a perpetual grant of the right of way to the United States, and instead of a complicated provision for courts of mixed composition—half American and half Colombian—to administer justice over the canal strip, the new treaty permits this government to exercise the most complete jurisdiction thereupon.

Permission is also given the United States to fortify the line and the terminals and it may police it with troops. That portion of the treaty dealing with the fortification of the terminals is rather general, but sufficiently explicit not to be misunderstood. The cities of Panama and Colon retain their municipal autonomy under the republic of Panama so long as they maintain public order and sanitary conditions to the satisfaction of the United States. Failure to do this gives the United States, according to the treaty, the right to force strict compliance with the wishes of this government in this direction and the United States can even use force to compel obedience to its rules as to public order and public health in these cities.

The money consideration is the same in the new treaty as in the Hay-Herran convention with the exception that the \$10,000,000 go to Panama instead of to Colombia.

The treaty further provides that the canal is to be neutral and open to all nations on even terms.

Two-thirds of the treaty concerns details of administration, which while not necessary to the efficiency of the convention, will, it is believed, commend the new treaty to many members of the senate who have picked flaws in the defunct Hay-Herran convention.

No time will be lost by Panama in ratifying the new treaty. Whether the ratification will be made by the government at Panama or whether the commission which arrived here Wednesday night will be cabled power to ratify it has not yet been determined. The exchange of ratifications will occur in Washington.

COLOMBIAN COMMISSION.

Coming to Washington to Ask United States to Rescind Its Action.

Galveston, Tex., Nov. 19.—Dr. Antonio R. Blanco, Denleco Jimenez and Julio C. Zuniga are aboard the quarantined steamer Cuba here. The three gentlemen are envoys from Colombia to the United States, their purpose being to endeavor to persuade this government to rescind its action in recognizing the new republic of Panama, and if this is accomplished, to open negotiations for a treaty giving the United States authority to construct the Panama canal.

CONGRESSIONAL.

There is Vigorous Opposition to the Cuban Treaty in the House.

Washington, Nov. 19.—Senate—Among the bills introduced Wednesday were the following: By Senator Platt (Ct.), providing for the restoration to citizenship of American women who have married aliens, when such women have become separated from their husbands and foreign alliances either by death or divorce; by Senator Callinger, providing for the erection in Washington of a monument for private soldiers of the civil war. The bill carries an appropriation of \$100,000.

House—The opposition to the Cuban bill was heard in the house and in vigorous speech. The features of the day were the speeches of Mr. Grosvenor (O.), who opened the discussion in advocacy of the bill, and of Mr. Fordney (rep., Mich.), who spoke in opposition. Mr. Grosvenor spoke for more than an hour, during which he was frequently interrupted by questions emanating from the democratic side. Mr. Fordney emphatically expressed his disapproval of the measure. He made an attack on Mr. Francis Thurber (N. Y.), and criticized Gen. Leonard Wood in severe terms for paying money to Mr. Thurber for distributing literature in the interest of Cuban reciprocity two years ago.

SEEKS ADMISSION TO PANAMA.

The Departments of Cauca and Antioquia May Secede.

Washington, Nov. 19.—The state department late Wednesday afternoon received advices that the department of Cauca and Antioquia, of Colombia, are seeking to separate from that government and are soliciting admission into the Panama republic.

No surprise is expressed here over the report that these departments are making an effort to align themselves with the republic of Panama. The two departments named and also that of Bolivar are the most prosperous in the whole Colombian territory. They contribute the greater portion of the revenues for the federal treasury, that of Antioquia alone paying about one-third of the entire amount. The Antioquians are known as the yankees of Colombia, and are progressive and business-like people. For a long time there has been dissatisfaction and discontent among the people of these departments over the management of affairs by the politicians at Bogota by whom they say their rights have been disregarded and their interests treated indifferently.

TYPHOID FEVER.

Seven Williams College Students Are Down With It.

Williamstown, Mass., Nov. 19.—Seven Williams college students are at the college infirmary ill with typhoid fever and four of the cases are pronounced critical. In addition, four men are under medical care and their physicians are watching for typhoid symptoms.

The critical cases are: Christian B. Martin and L. F. Martin, brothers, of Columbus, O.; Clarence J. Goodwill, of Chicago, and Walter Squires, of Plainfield, N. J.

College authorities are making a determined fight to prevent an epidemic and also to head off a threatened exodus of students. The origin of the fever in the college is not known.

AMERICAN MARINES LANDED.

The Insurgents Shelled the City of Santo Domingo Tuesday Night.

Cape Haytien, Nov. 19.—Word received from Santo Domingo Wednesday morning states that the insurgents shelled the city throughout Tuesday night, the government forces returning the fire with artillery. The dispatch adds that a force of 50 marines was landed from the American cruiser Baltimore, which is in Santo Domingo harbor.

PANIC IN A CHURCH.

Two Children Trampled to Death and 50 Adults Injured.

Santa Fe, N. M., Nov. 19.—In a panic in the Roman Catholic church at La Puente, Rio Arriba, caused by a wax taper setting fire to the altar trimmings, two children were trampled to death and 50 adults were hurt, having ribs and ankles broken or otherwise injured. Father Juvenileau, the priest, remained at the burning altar and succeeded in allaying the panic after the first rush.

Found Dying on the Pike.

Carlisle, Ky., Nov. 19.—John Williams, aged about 65 years, was found in a dying condition on the pike near this city and died while being brought to town. He was a sawmill man and was a comparative stranger here.

TEAMSTERS UNION

Action Taken That May Result in a Very Serious Labor Situation in Chicago.

SYMPATHIZE WITH THE CARMEN.

They Refuse to Deliver Any Articles to the Chicago City Railway Co. During the Strike.

If Any of the Teamsters Are Discharged By Employers For This Action a General Strike Will at Once Be Ordered.

Chicago, Nov. 19.—The teamsters' union took action Wednesday night that may result in one of the most serious labor situations ever seen in this city.

At a general meeting of the organization it was decided to order all members of the teamsters' union to refuse to deliver any articles to the Chicago City Railway Co. during the existence of the present strike. It was also decided that if any of the teamsters were discharged by the employers for refusing to deliver goods to the railway company, a general strike would at once be ordered against the Chicago Employers' association.

A few days since Secretary Job, of the employers' association, announced that any teamster convicted of blockading the lines of the street car company during the present troubles would lose his position. The action of the union Wednesday night is a defiance of the statement made by Secretary Job. The teamsters' union, which is the strongest labor organization in the city, has about 4,000 members and has contracts with practically every establishment of prominence in the city that has teams of its own.

Last spring the union signed contracts with the employers' association by which the sympathetic strike was ruled out of existence as far as the teamsters are concerned. The sympathetic strike is also against the constitution of the national organization.

Last spring when the freight handlers of the city were anxious to inaugurate a strike against all of the roads running out of the city, they sought to enlist the aid of the teamsters, but the latter refused to have anything to do with them on the plea that their constitution prohibited them from embarking upon any sympathetic strikes.

The gravity of a general strike by the teamsters can be appreciated when it is stated that it would for a time tie up entirely the delivery of freight to all the railroads in the city and would almost paralyze the business of the city.

As far as the Chicago City Railway Co. is concerned the action taken by the teamsters prohibits any members of the teamsters' union from delivering coal to the yards of the company, or from taking provisions to the men now housed in the company's barns. The company has so far managed to keep about three days' supply of coal in its bins and the action of the teamsters will make it difficult to secure a further supply.

THE CARMEN'S STRIKE.

The Prospect For a Speedy Settlement Is Not So Hopeful as Tuesday.

Chicago, Nov. 19.—"The prospect for a speedy settlement of the strike of the employees of the Chicago City railway are not as hopeful as they were yesterday."

This statement was made by Mayor Carter H. Harrison Wednesday night after a day of conferences between the city council peace commission, delegates of the strikers' union and representatives of the Chicago City Railway Co.

"Whether the difficulty will finally be adjusted by arbitration I am unable to say," continued the mayor. "Every effort possible was made Wednesday to have both sides to the controversy adopt this means of settlement, but without satisfactory result. The officials of the company, however, have promised to send me to-morrow morning a more complete statement of their position than they were able to give Wednesday night, but from Wednesday's developments I am not so sanguine as I was Tuesday that they will agree to the proposition of arbitration as submitted by the strikers."

Rome, Nov. 19.—The newspaper Messagero Wednesday reports that an anarchist plot against President A. Deucher, of Switzerland, has been discovered at Milan. Three men were arrested, one of whom was on the point of leaving for Switzerland.

Landed Reinforcements in Jolo.

Manila, Nov. 19.—An unofficial report says the captain of a United States army transport has landed reinforcements in Jolo and that fighting commenced as soon as the troops landed.

A New York paper, speaking of the Roxburghe-Goelet wedding in that city last week, says: "A large force of police surrounded the magnificent church in a vain endeavor to keep back the commonalty." It's just too awfully awful that "the commonalty" were permitted to gaze on the "Dook" and his "b'widel".

The Pure Food Commission of Kentucky has a big contract on hand. The report of the Kentucky Experiment Station shows that 56 per cent. of the samples examined were adulterated. Some articles, however, showed a much larger percentage of adulteration, rising to 100 in the case of flavoring extracts, fountain drinks, preservatives and oleomargarine. On the other hand, the samples of some articles were found entirely free from adulterants. The report shows that there is abundant work for the Experimental Station and the Pure Food Commission.

Gathering Agricultural Exhibits.

During the past week the members of all county committees of the Kentucky Exhibit Association, who were appointed to look especially after the collection of samples and specimens for the agricultural and horticultural exhibits for the World's Fair, were asked by Col. Ion B. Nall, the Chairman, to furnish information as to the success of their efforts. Over one hundred replies have already reached exhibit headquarters, and while many show that the drouth interfered seriously with gathering the very best possible, many are encouraging. It is practically certain that every county in the State will have representation in one or another of the many classifications under this department. People who have anything worthy space in the exhibit, and who have not been approached by committeemen, will confer a favor on the association by reporting their samples to the Secretary of the association in Louisville. Many banks throughout the State have doubtless on display this year some fine ears of corn grown in their communities. The cashiers of these institutions will please notify the association if they will donate these to the exhibit.

"The Mountain Problem."

Rev. H. J. Derthick, of Berea, Ky., will deliver an address to-night at 7:30 o'clock at the Christian Church on "The Mountain Problem." Mr. Derthick has had many interesting experiences in the mountains of Kentucky, and is an entertaining and instructive speaker. His address at the recent State convention at Paris was one of the best delivered during the meeting. Public cordially invited to hear him.

Mason's Representative Will Vote For a New Capitol.

FRANKFORT, Ky., Nov. 17.—Representative-elect Virgil McKnight, of Mason County, arrived here to-night to arrange for his stay during the approaching session. Mr. McKnight announced on viewing the old Capitol building that he will vote for and use his influence to secure the passage of the Capitol Appropriation bill.

River News.

There is a substantial rise at headwaters insuring a general resumption of navigation. The Pittsburg and Pomeroy packets will be out ere the close of the week.

There was nearly fifteen feet of water at Pittsburg last evening, and a fine shipment of coal is on the way. Nearly 10,000,000 bushels will be gotten out.

MIGHTY STRIDES

Being Made By the Young Industrial Giant, the South.

[Leslie's Weekly.]

As recently as 1890 the North's mills consumed more than three times as much cotton as did the mills of the South—1,799,258 bales for the former and 546,894 for the latter. In the twelve months ending August 31, 1903, the North's mills used 1,967,635 bales and the South's 2,000,729 bales. While the North gained but slightly in the thirteen years the South advanced by leaps and bounds. The 76.7 per cent. for the North and the 23.3 per cent. for the South, which represented the proportion of the consumption of cotton in the mills of the sections thirteen years ago, has changed to 49.58 per cent. for the North and 50.42 per cent. for the South this year.

Calhoun's old State—3,036,000 spindles for South Carolina, 2,061,000 for North Carolina, 1,370,000 for Georgia and smaller numbers for other States of their section—has a lead throughout the South in cotton manufacturing. This is not what that statesman looked for. Possibly it is not the sort of supremacy which he wanted. It is a kind of ascendancy, however, which will tell favorably for that State and region. The South, which had only 295,359 spindles in operation in 1860, 338,860 in 1870 and but 1,819,291 as recently as 1890, has 8,248,275 whirling to-day.

This shifting of manufacturers to the region of the raw materials is asserting itself in the case of iron, wool and other commodities, and will continue to do so, thus altering the face of things throughout the South, West and East. Industrial shiftings and readjustments are in progress throughout the country, which will erect new balances and set up new centers. These are facts of portentous consequence. In the meantime how Hammond, Hunter, Clingman, Jefferson Davis, Toombs, Slidell and the rest of the South's leaders of 1860 would marvel could they behold the sweeping transformation which has taken place in their section since that day! Is the South to become the protection section and New England the advocate of tariff reduction? Not impossible!

EXPECTING A BOOM

Are Our Neighbors Across the Ohio When the Railroad Comes In.

["Barlow" in Ripley Bee.]

Aberdeen is expecting a boom when the railroads come in. Well she is old enough to put off her short clothes and dress up like a lady. She was laid out by Nathan Ellis, her first settler, July 5, 1816, and the plat was recorded by J. Darlington, Recorder of Adams County, July 12, 1816. She will therefore be eighty-eight years old her next birthday.

The village was not incorporated until 1850, a half century ago. Among her first citizens there are none left. She has a beautiful location, room enough to spread herself, and become a healthy rival of Maysville, Ky. May the iron horse and electric motors arrive to celebrate her next anniversary. May the old gal grow fat and her cheeks bloom as in the days of her youth and ten thousand children arise to call her blessed.

Advertised Letters.

The following is a list of letters remaining in the postoffice at Maysville, Mason County, Ky., for the week ending Wednesday, November 18, 1903:

Harry Bereford and company were greeted by a small audience at the opera house last night in "The Professor's Love Story." It is a delightful play, and the company is a most excellent one throughout. Maysville theatre-goers, however, don't seem to appreciate the efforts of the local managers to provide first-class attractions.

Taylor at "Inginy" didn't roll the news from Kentucky as a sweet morsel under his tongue likely, and the daisies may come and go many times before he shall see his way clear to trust himself to Kentucky hospitality. But Taylor at Washington is always on hand and he is selling that sweet New Orleans molasses called "Daisy" at 50c per gallon.

The witches in "Macbeth," and all that belongs to them, are but poetical impersonations of evil influences. They are the imaginative, irresponsible agents or instruments of the devil. They appear on Thanksgiving evening, November 26th, at the opera house, in several scenes with John Griffith, who is starring this season in a new and grand production of "Macbeth."

The Louisville Public Warehouse has donated to the Kentucky Exhibit Association the use of three large rooms for storage of agricultural specimens until next April, when they will be sent to the World's Fair in St. Louis. Samples for the agricultural display from Kentucky at the exposition are now pouring into Louisville from all sections of the State. That county which is not represented in this big exhibit will have no one to blame but itself. Every section of the State has been given opportunity to make a show of its products and resources in Kentucky's space at the World's Fair.

PITHY POINTS.

Democracy means decency and moderation.

Parties, as well as individuals, are known by their fruits.

The people of Kentucky are hard to deceive as to truth, honesty and manliness.

Had Republicans won on November 3rd, pandemonium would have reigned.

The Kentucky election didn't pan out to the taste of Taylor and Durbin.

Durbin likely will use the Democratic majority in Kentucky as another argument in favor of retaining Taylor in Indiana.

Taylor will have a better show for his life here than he allowed William Goebel, at any rate.

The reason Taylor is so cautious about showing himself in Kentucky is that he showed no mercy to the brave, chivalrous and unsuspecting William Goebel.

If Durbin will allow Taylor a chance to tell what he knows about the assassination of William Goebel, it may surprise both him and many others how much light he can throw on that dark and hellish plot.

Home endorsement, the public expression of Maysville people, should be evidence beyond dispute for every Maysville reader. Mr. C. L. Hubbard, dairyman, of 325 West Third street, says: "I have the greatest faith in Doan's Kidney Pills. The use of less than one box ended a disturbed condition on the kidneys and an inflammation of the bladder. After some time it returned but in a lesser degree and I procured another box of Doan's Kidney Pills at J. Jas. Wood & Son's drug store. Use of it substantiated the opinion I had already formed of this effective preparation."

For sale by all dealers. Price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—DOAN'S—and take no substitute.

11-20

W. R. Smith & Co. are displaying in various show windows of Maysville a few of the principal presents to be given away at the New Shoe Store Christmas morning.

It was thought advisable to exhibit these gifts in order to acquaint everybody with the fact that this is to be no "cheap" affair. Each article was purchased of a home merchant and they are first-class and up-to-date goods.

The elegant Morris Chair, for instance, comes from the "White Palace" furniture store. Peep in upon it and you will pronounce the chair "all right." If you are curious and want to know its cost, Mr. Winter is at liberty to inform you on that point.

Clooney & Perrine furnish the fine Opera Glasses, which are of a quality you need not feel ashamed should you become their happy possessor. They are ready for a "look" too.

At Schatzmann's china store may be seen the pretty Parlor Lamp and the exquisite Jardiniere and Stand, perhaps the most elaborate things in stock, each fit for a "Palace of the King."

All money looks alike, and we deem it unnecessary to show the color of the cash at this stage of the proceedings. However, "it goes," the hundred dollars do, to fortunate certificate holders.

Pretty souvenirs for those who are unlucky.

The Bee Hive!

Special!

On Saturday, November 21, we will have a line of Ladies' Suits on display, sent us from the best manufacturers in this country. Don't delay coming, for they will be here for ONE DAY only. Suits will be delivered direct from this line.

SEE THE DIFFERENCE!

It is the American point of sensitiveness not to know how to do things as they are done by recognized authorities.

Recognized authority is another name for Style. If a woman has Style you know it at once. You examine her credentials in your first glance at her shoes. If they are not stylish she is not.

The "Style of a Dorothy Dodd" shoe is the first thing that attracts attention. It is unmistakable. The "Dorothy Dodd" is as different from an ordinary shoe as day is from night.

But don't take any one's word for this! Try on a pair and see the difference in the appearance of your feet.

GANG OF COUNTERFEITERS.

Secret Service Agents Raided Apartments of Mrs. Josie Biondo.

New York, Nov. 19.—Secret service agents raided the apartments of Mrs. Josie Biondo, who had been arrested for attempting to pass counterfeit coin. They found metal moulds and formulas for the composition of counterfeit coin and also four big sticks of dynamite, weighing six pounds, a coil of fuse and a supply of fulminating caps. The woman's husband was arrested.

Among the papers found in the room was a list of several hundred names, both Italian and American, which the secret service men are inclined to believe has something to do with Mafia matters.

Biondo, the secret service men say, is acquainted with Morello, the leader of the gang arrested for alleged complicity in the "Barret" murder. This gang consisted of seven or eight counterfeiters who were rounded up by the secret service men. It was known at the time that the gang had extensive outside connections, but these could not immediately be traced.

A few red ink lines represent the silk fiber, the panel containing the charter number on the back of the note is black instead of green.
